

# NHS Long Term Plan – getting Scrutiny of STPs and ICSs right

Rory Deighton  
Regional Lead  
NHS Confederation

@rory\_deighton

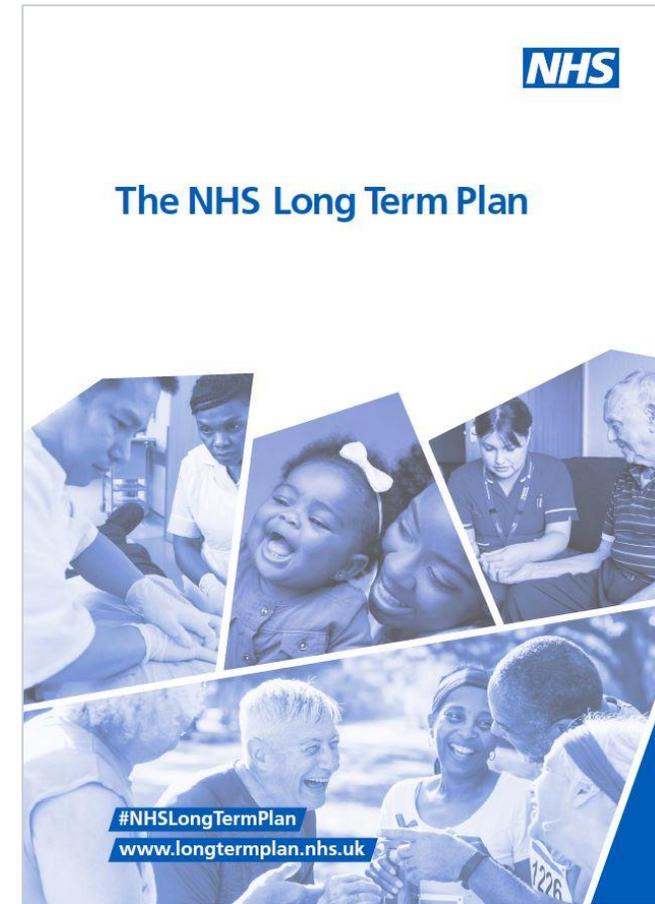

Olivia Butterworth  
Head of Public Participation  
NHS England & Improvement

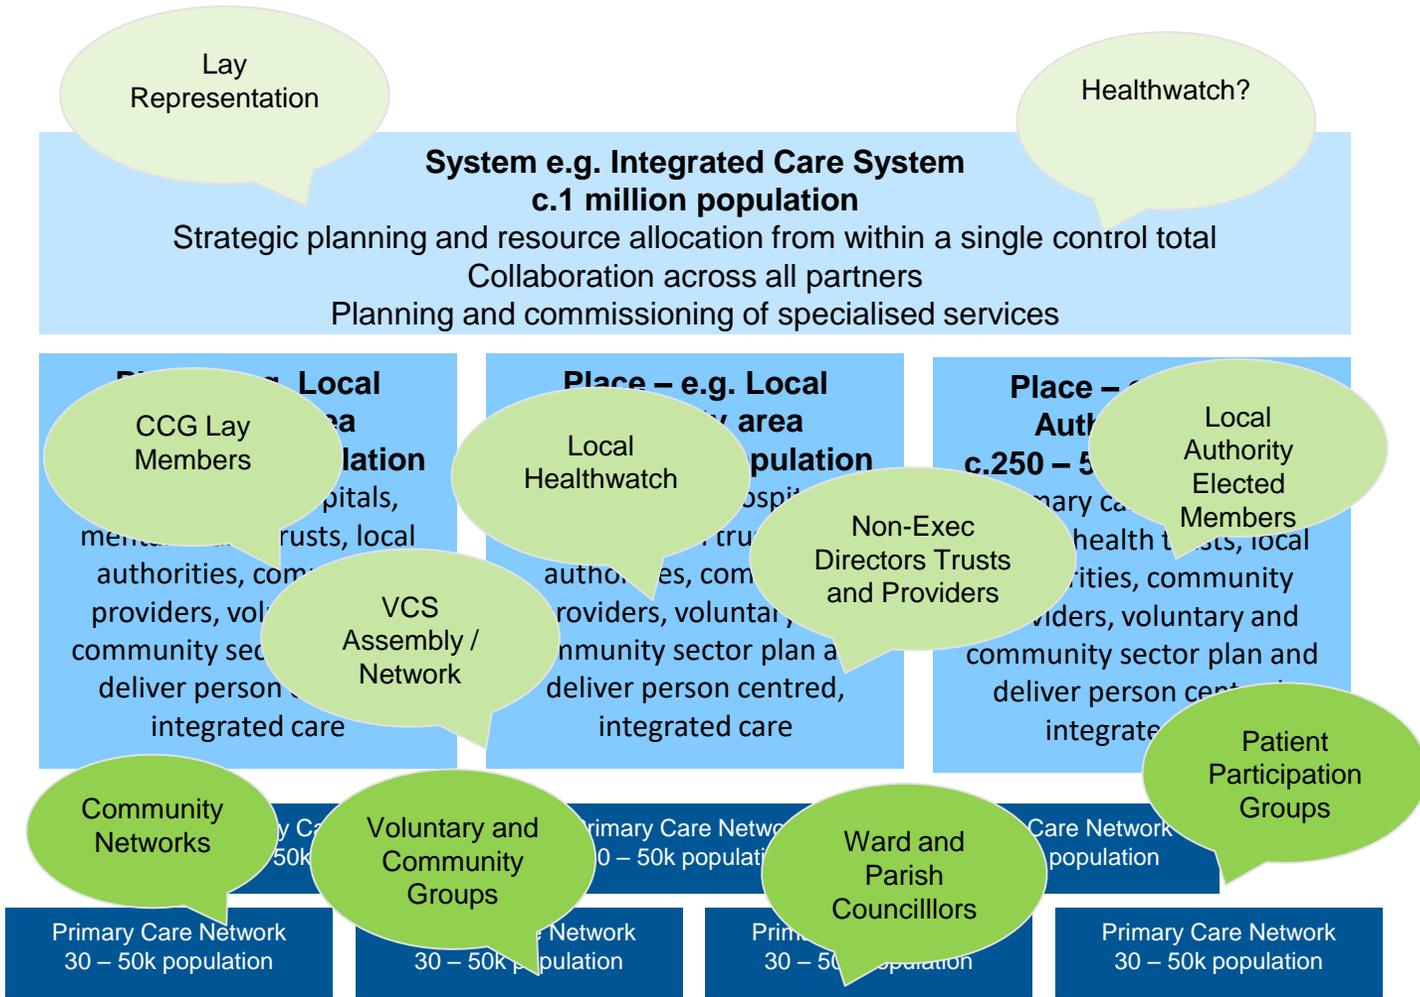

@LiviButt

# The NHS Long Term Plan set out how we will invest the funding commitment from government

- 1 Do things **differently**, through a new service model
- 2 Take more action on **prevention** and **health inequalities**
- 3 Improve **care quality** and **outcomes** for major conditions
- 4 Ensure that **NHS staff** get the backing that they need
- 5 Make better use of **data** and **digital technology**
- 6 Ensure we get the most out of **taxpayers' investment** in the NHS

## 1. Lets get a sense of where we are

What are your experiences of Scrutiny and STP/ICS systems?

When you work with STP/ICS, what's different to normal scrutiny work?

Talk to your group for 5 minutes.

Feedback 10 minutes

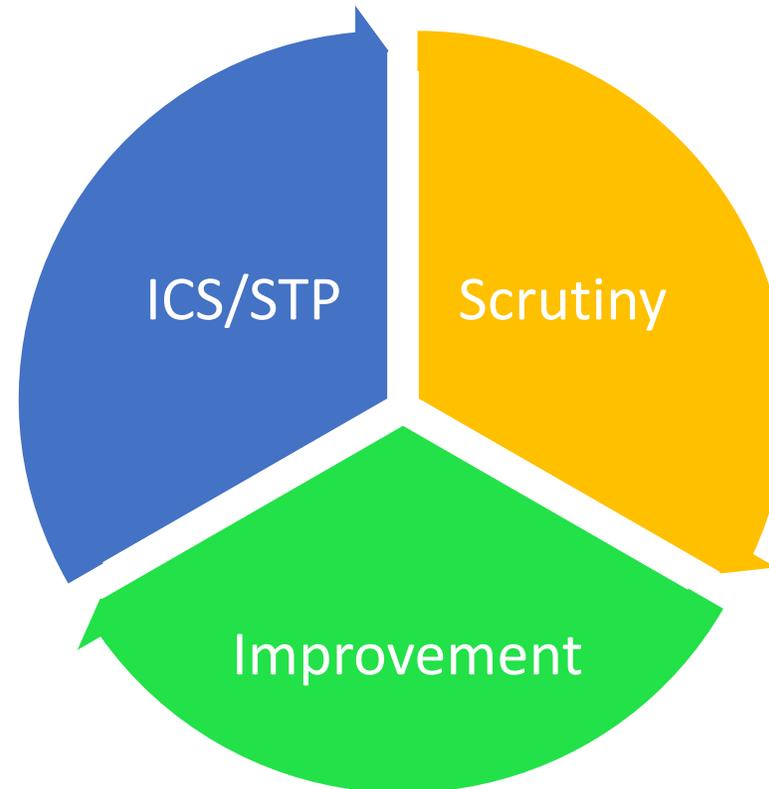

Use post it notes to add additional points after the discussion has finished

Lets agree some common themes

## 2. A good scrutiny process requires a contribution from both the ICS/STP and the Scrutiny Panel

How do you want STP/ICS to engage with you?

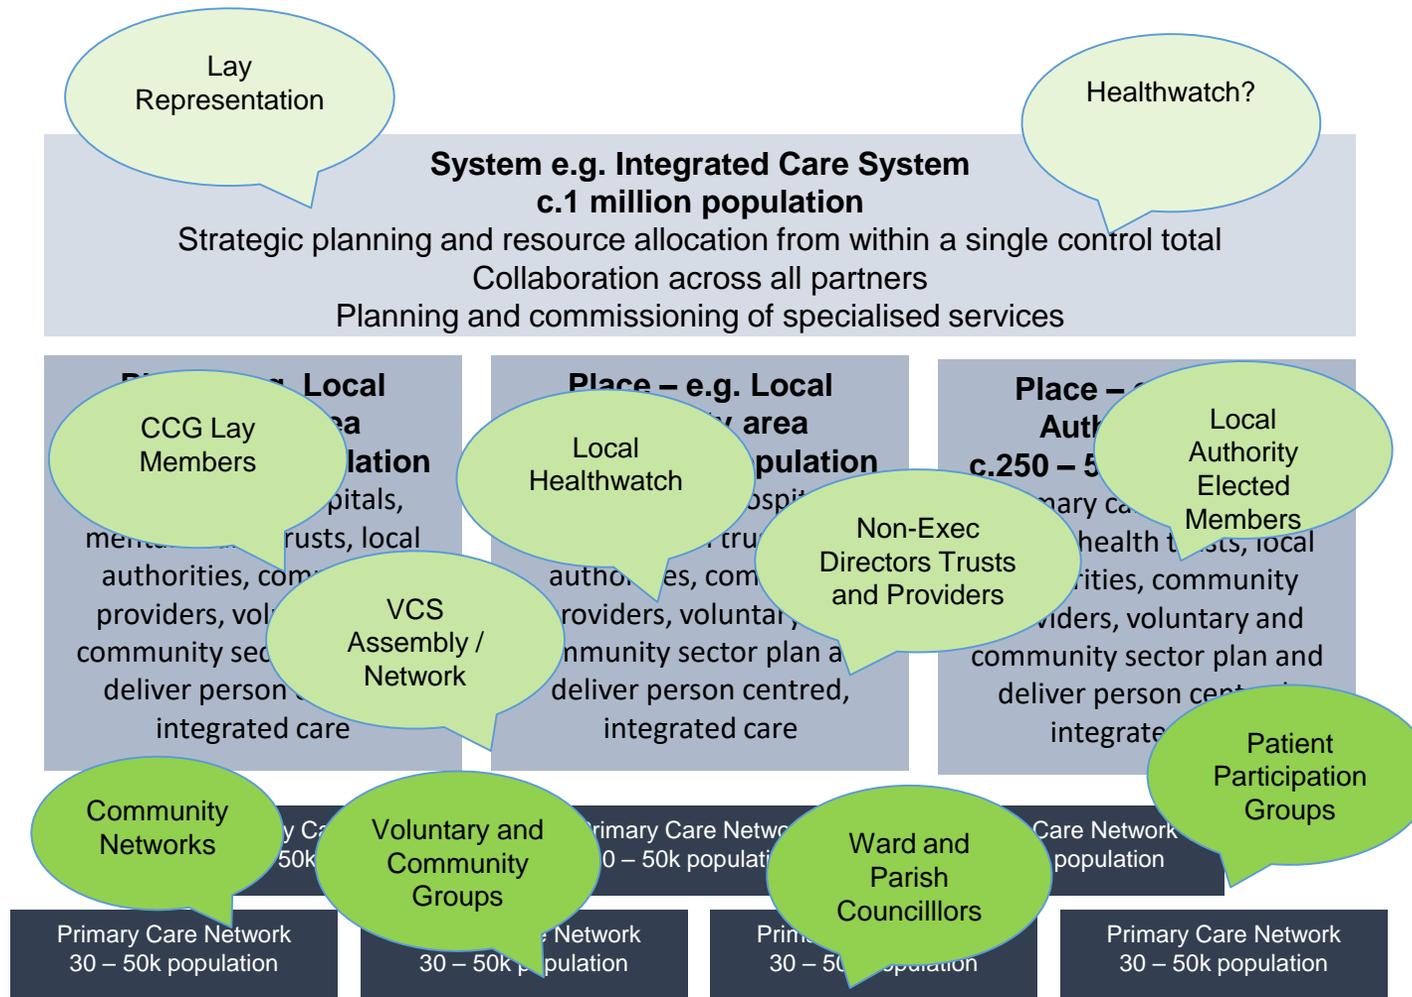

What does good look like?

What are the issues that a panel will need to consider?

What do good questions look like?  
(what do bad questions look like?)

### 3. If every other part of the Health and Care System is changing, how might Scrutiny change as well?

Rob Webster- West Yorkshire ICS Lead “the importance of giving something away”  
 To support successful partnership working, in the pursuit of a wider set of social goals

Thank you for your contributions

If you have further thoughts or comments, then let us know.

Keep the conversation going
